PROFILE

I am a 7th-semester Informatics Engineering student at Budi Luhur University with an interest in web development. I am proficient in using HTML, CSS, JavaScript, React, and Tailwind CSS. I am highly dedicated to continuously learning cutting-edge technologies, writing clean code, and delivering innovative digital solutions.

EDUCATION

Universitas Budi Luhur

Bachelor of Computer Science

Current Status : 7th Semester

Cumulative GPA: 3.59/4.0

PROJECT EXPERIENCE

1. Personal Portfolio Website – React JS (2026)

- Developed a responsive personal portfolio website using React JS and Tailwind CSS.
- Integrated user-focused interactive animations using Framer Motion to create a dynamic and smooth browsing experience.
- Designed a structured frontend architecture to showcase professional profile, technical skills, project portfolio, certifications, and academic background.
- Managed source code using Git and GitHub, and successfully deployed the application to Vercel for public accessibility.

2. Computer Course Website (KKP 2026)

- Developed a computer course website interface and backend system using Laravel and MySQL.
- Designed a structured MySQL database schema to efficiently manage user data, class schedules, and payment transactions.
- Built backend functionalities providing REST APIs to handle client-side requests and data management efficiently.
- Successfully deployed and hosted the web application on Hostinger, ensuring public accessibility and reliable server management.

SKILL

- Technical skill : HTML, CSS, JavaScript, React JS, PHP, Laravel, MySQL, Git and Github
- Soft skill : Problem Solving, Team Work, Communication, Time Management and Critical Thinking
- Language : English (Intermediate), Indonesia (Native)
